Several Classes of Securities Were Notably Strong-Money Market Conditions-More Active Local Trade.

At New York yesterday money on call was Sterling exchange was steady, with actual \$4.82 and \$4.85%; commercial bills, \$4.80%@4.80%. Silver certificates, 64265c; bar silver, 63%c;

Mexican dollars, 50%c. Silver bars sold at 29%d gars is falling off, as the fruit season nears its nore than the routine progress of a speculative | changed prices. In fruits and produce the marthe advance of Tuesday. The poultry market is overstocked and prices are weak, and some dealers have asked shippers to hold off until the glut in the market is relieved. The dry goods since the present speculative period began. The market is quite active, and to fill orders emprofit-taking somewhat overbore the new buying, care working overtime. In prices there are no important changes. The provision market increases in activity, and prices on some its greatest force towards the close of the ses- descriptions of hog products are hardening in market was on the side of reaction to a greater exent than on previous days. Buying orders the cessation of the rains Track bids, as re-ported by the secretary of the Board of Trade ame into commission houses over night for yesterday, ruled as follows:
Wheat-No. 2 red, 72½c; No. 2 red, on milling freight, 72½c; No. 3 red, 57@70c; November, 72½c; execution, and London also bought stocks in the American department on a large scale, influencing the market to strength early. Undoubztedly very large operations are conducted in London on cabled instructions from New York. It was perfectly natural that the good market afforded by the large buying yesterday morning should be taken advantage of to take profits on the notable.

The first hour was furlously active and remarkably steady, the demand being fed so freely as to preclude any sensational advances. But as an impression Turkeys, hens, 71/2c per lb; toms, 5c; hens, 61/4e; cocks, 4c; ducks, full feathered, 6c; geese, full egan to be made on prices, the seiling pressume was relaxed, showing the careful nursing feathered, \$5.40 per dozen; young chickens, 61/20 process of the powerful speculative leaders who are at the head of the present movement. Buying was then diverted to new points, and under Cheese-New York full creams, 13c; domestic cover of the notable advance thus achieved, the | Swiss, 17c; brick, 14c; limburger, 13c. near to the lowest, except in the stocks that had been especially strong. The grangers were foremost in this list, St. Paul leading with an

extreme advance of 314. Atchison common was

very heavily bought at an advance of 3%. Brook-

Gas were also strong points. The Northern Pa-

cifics were naturally prominent in the reaction-ary tendency after Tuesday's notable advance,

and Pennsylvania was also quite weak. The steel

stocks yielded to increasing pressure, and closed

the day generally at net declines. The early strength in Union Pacific, the Denver & Rio

Grande, and the St. Louis & San Francisco stocks yielded to reaction. Money continued easy, and the subtreasury paid out \$1,600,000 on account of assay office checks for gold deposited

at Pacific coast points from Australia. This swelled the total debit balance of the subtreas-

ery at the clearing house to \$2,041,406. The un-

tertone of the sterling exchange market con-

tinues firm, in spite of some large buying of

lyn Transit and the other local traction stocks,

close. Oats closed a shade lower, and provisions uncharged to 75c higher. Though opening fractionally lower, wheat did not show any particular weakness during the

proved weather conditions, firm cables sustaining prices. There was, however, an almost total absence of buying orders. Local traders were not in the market, and outside support, if any was intended, was prevented by the demoralized condition of the telegraph, due to the storm. This fact was at once taken advantage of by the local bears, who raided the market vigorous-We before support ws given. December open-5 %c lower at 70% @70%c. It sold for a moment at Tie, then dropped to 70%c, but at that point covering by shorts was started, the deman's continuing until the price had advanced to 71%?. That buying apparently cleared up the short interest, as prices again sagged, with buyers in a large reached shortly before the close, December tot ching 71%c. The close was firm at 71% @71%c. Northwest receipts were 453 cars, against 391 last week and 634 a year ago. Chicago receipts were 101 cars, one of contract grade. Total primary receipts were 778,000 bu. An excellent cash inquiry was reported, both from domestic millers and Eastern exporters. The corn pit was full all day. Prices were

From that point it advanced 1/2c at a time under bidding by scared shorts until 45c had been reached. December, too, turned upward, shorts being driven in by buying in the interests controlling the November deal, and during the latter part of the session the market showed great strength. vember closed at 45c, an advance of 3%c. December ranged from 36c to 35%c, and closed %c higher at 35%c. Receipts were 348 cars, only fourteen of which were contract grade. Oats were extremely dull all day, with trading mostly in the way of changing from December to May, at a slight widening of the spread. The

market was fairly steady, helped by the corn strength, but closed at a slight recession. Recelpts were light-85 cars. December ranged from 21%c to 21%@22c, and closed a shade lower at 21%@21%c. Provisions were dull but steady. There was good cash demand for products of all kinds, and this and the strength of wheat and corn sustained speculative futures. At the close Jan-
